

CSIR-INSTITUTE OF MINERALS AND MATERIALS TECHNOLOGY
Council of Scientific & Industrial Research
BHUBANESWAR – 751 013

5 days Training programme on

Cutting and polishing of colored stones

CSIR – IMMT is one of the leading technology organizations in Mineral and Materials Technology. Its advanced Materials Technology Department has been working on development of advanced materials by processing of minerals/wastes/beach sands/gemstones etc. It has also been working on both processing of gemstones for aesthetic improvement and value addition. Besides it has developed expertise and facility for cutting and polishing of colored stones which will be beneficial to many entrepreneurs/persons having interest in gemstone business/gems traders to start the new business or getting employments. The gemstones centre is well equipped with cutting, performing, shaping and polishing units (lapidary units) to cater to the need of its R&D activities.

One of the objectives of CSIR-IMMT is to create skilled manpower in heralding the gemstone business in Odisha as well as in other states. To pursue such an objective the following 5 days training certificate course is initiated.

Training to whom

The programme targets individuals having desire to acquire high-level of skills and exposure to the training on cutting and polishing of colored stones.
